

## Explosion Seismology in Central Europe

By Giese, P. / European Seismological Commission

Book Condition: New. Publisher/Verlag: Springer, Berlin | Data and Results | Publication of the Deutsche Geophysikalische Gesellschaft | The determination of crustal structure by means of explosion seismology has been one of the major objectives of the European Seismological Commission (ESC) over the past twenty-five years. It was decided some time ago to publish the results of regional crustal investigations in Europe in a series of monographs. This publication entitled "Explosion Seismology in Central Europe - Data and Results" is Volume 1 in a sequence of publications dealing with the crustal structure in Europe. The European seismologists are indebted to the German Geophysical Society (Deutsche Geophysikalische Gesellschaft) for taking the initiative to publish this book. Thanks are due to the German Research Society (Deutsche Forschungsgemeinschaft) for providing generous financial support of the field measurements and data evaluation. It is hoped that this publication will stimulate a continuation of investigations of the earth's lithosphere in order to elucidate the details which are still not fully understood. | 1 Main Geologic Features of the Federal Republic of Germany.- 2 Contributions by Other Geophysical Methods.- 2.1 Investigation of Seismic Noise in the Federal Republic of Germany.- 2.2...
